

# It Can't Rain Forever

Oh Honey

Storms cause our flowers to bloom  
Clouds like the smoke in the room  
My mind is not where it should be  
Grey skies made a mess out of me

This pain, these problems  
You know they're not forever  
My love, my sweetheart  
We're on to better weather

It can't rain forever  
Some days it will pour  
Love is the best umbrella  
It can't rain forever  
No-o-o-o  
It can't rain forever  
No-o-o-o  
It can't rain forever

Tides change with the help of the moon  
Day comes once the night makes room  
My head is swaying like a tree  
Rough winds put the fight back in me

This pain, these problems  
You know they're not forever  
My love, my sweetheart  
We're on to better weather

It can't rain forever  
Some days it will pour  
Love is the best umbrella  
It can't rain forever  
No-o-o-o  
It can't rain forever  
No-o-o-o  
It can't rain forever

Gotta take the time you need  
Clean up the mess and make it neat  
Get your head right just believe  
It all gets better if you lean on me

Gotta take the time you need
