

22 Make

Oh Wonder

Everybody says it's easy
To give over your heart
Look at your life go breezy
When you're driving the same car
Never been one to be needy
I know I'm playing a part
But fuck it, love ain't easy

I wanna kiss you, wanna hold you, wanna go when there's a green light
But I'm a little overcomplicating everything that feels right

Gotta 22 make
And not a lot of time
I'm running out late
With you on my mind
I pray for my fate
I swear that I'll find
That in the end, what more than a life would I choose
Where I know that I'll be sticking with you
Sticking with you, sticking with you, sticking with you, sticking with you..
.

Throw away the plan and just be
Let the good times flow
End up on a road to nowhere
'Cause that's the way that life goes
And when I was young, it seemed dreamy
Knowing who you're meant to be
But you never know the path you're taking
And I don't believe in destiny

I wanna kiss you, wanna hold you, wanna go when there's a green light
But I'm a little overcomplicating everything that feels right
But I'm a little overcomplicating everything that feels right

Gotta 22 make
And not a lot of time
I'm running out late
With you on my mind
I pray for my fate
I swear that I'll find
That in the end, what more than a life would I choose
Where I know that I'll be sticking with you
Sticking with you, sticking with you, sticking with you, sticking with you..
.

Life don't make much sense sometimes
But we carry on, we carry on, we carry on
(Don't make much sense sometimes)
Life don't make much sense sometimes
(Don't make much sense sometimes)
But we carry on, we carry on, we carry on
(We carry on)
Life don't make much sense sometimes
But we carry on, we carry on, we carry on

Overcomplicating everything that feels right

Gotta 22 make
And not a lot of time
I'm running out late
With you on my mind
I pray for my fate
I swear that I'll find
That in the end, what more than a life would I choose
Where I know that I'll be sticking with you
Sticking with you, sticking with you, sticking with you, sticking with you..
.

(Make, and not a lot of time
I'm running out late
But I'm a little overcomplicating everything that feels
My fate
Soon enough)
But in the end, what more than a life would I choose
Where I know that I'll be sticking with you
Sticking with you, sticking with you, sticking with you, sticking with you..
.
(But I'm a little overcomplicating everything that feels right)
