

All About You

Oh Wonder

You walk around the town like you were born in a golden crown
You're speaking with the angels loud but no one understands ya
You got the sharpest bite as any killer sharper might
And you control the what I like, the does, the doesn't matter

You're so full of it
And we're so sick of it
You're so full of it
And we're so sick of it

'Cause it's all about you
It's all about you
It's all about you
It's all about you

You say it's not enough, you're sipping from a silver cup
But it's the how she brought you up, to blame the hand that feeds ya
You counting green at night but blessings you will never find
You only seek to undermine, you only seek to never die

You're so full of it
And we're so sick of it
You're so full of it
And we're so sick of it

'Cause it's all about you
It's all about you
It's all about you
It's all about you

And every time you get stars in your eyes
And the planets align in the centre
Wishing the luck to the walls in the wild
And you're out of your mind at the effort
We see him coming, we see another
Fooling himself in the mirror
Where is your heart? Where is the truth?

When it's all about you
It's all about you
It's all about you
It's all about you

You're so full of it
And we're so sick of it
You so full of it
And we so sick of it all

'Cause it's all about you
It's all about you
It's all about you
It's all about you
