

# Bigger Than Love

Oh Wonder

Heading west to where the sun sleeps  
City fallout let our lungs breathe  
Can you hold me, I can't even speak  
Oh my, here it goes

And so the echoes slip in slowly  
The edges of you keep me holy  
Can I hold you, I can't even speak  
Oh my, here it goes

We found love on an empty page  
Kill the stars above trying to fight the fade  
And now my heart skips heavy underneath the waves  
We are done, we are gone

'Cause this is already bigger  
This is already bigger than love  
This is already bigger  
This is already bigger than us  
It's bigger than you  
It's bigger than me  
It's bigger than you  
It's bigger than me  
It's bigger than love

Waste away into the nightfall  
Hands are shaking at the last call  
In the silence can you hear me scream  
Oh my, here it goes

We found love on an empty page  
Kill the stars above trying to fight the fade  
And now my heart skips heavy underneath the waves  
We are done, we are gone

'Cause this is already bigger  
This is already bigger than love  
This is already bigger  
This is already bigger than us  
It's bigger than you  
It's bigger than me  
It's bigger than you  
It's bigger than me

So I'll hold steady like a tiger in the dark  
All my days are ready to be hopeless at the stars  
'Cause this is already bigger than it oh  
Oh it's bigger than us

Yeah, this is already bigger  
This is already bigger than love  
This is already bigger  
This is already bigger than us  
It's bigger than you  
It's bigger than me  
It's bigger than you  
It's bigger than me

It's bigger than love
