

Can We Always Be Friends?

Oh Wonder

Holy
Look at all this light that I give you
You're shining like the top of a tower
Holy
Look at this life that you give me
I'm shining like I found all my power

When we go we go out dancing
Move heaven and earth
Spinning 'round like we are endless

Can we always be friends?
We got too much love
Can we always be friends?
Too much love
Too much love
You and me together
Together till the end
Can we always be friends?
Can we always be friends?

Holy
Body full of buzz when you're in view
Adoring you a million an hour (Oh-oh, oh-oh, oh)
Holy
Look at all this happiness come through
I'm flying like a bee to a flower

So can we always be friends?
We got too much love
Can we always be friends?
Too much love
Too much love
You and me together
Together till the end
Can we always be friends?
Can we always be friends?
Can we always be friends?
Cause in world of plenty of people there's no else
So can we always be
You and me

Can we always be friends?
We got too much love
Can we always be friends?
Too much love, too much love
You and me together
Together till the end
Can we always be friends?
Can we always be friends?

We got too much, too much, too much
We got too much (Too much love)
Too much love
Can we always be friends?
Can we always be friends?
Can we always be friends?
Can we always be friends?
