

Down

Oh Wonder

Where's the override?
Stop the rising tide
I need extra time

I'm a little life
In a desperate fight
To retrieve the light

Everything is faded
I can feel myself going down
Down down down down down down
Down down down down down down
Down down down down down down
Down down down down down down

Where's the override?
Stop the rising tide
I need extra time

Did we lose the line?
Is our love unblind
With the end in sight?

Everything is faded
I can feel myself going down

Call it a disaster
Call it what you like
When sadness is your neighbour
There ain't room for kind

And I can feel my body
Breaking all the blood
Running out my fingers
Am I gonna get this?
Am I gonna get this right right?
Am I gonna get this?
Am I gonna get this right right?
