

# Drunk On You

Oh Wonder

Sorry I was awkward at first when we met  
To be honest I was nervous to do this again  
Haven't met somebody new in what feels like forever  
I'm happy we stayed out all night dancing

Oh, what a rush as you held me close, spinning slow  
We drank too much, let our bodies touch on the way back home  
And I got this feeling after you leave  
In the morning I'll still be drunk on you  
Still be drunk on you

Drunk on you, drunk on you  
Baby, I'll still be drunk on you  
Drunk on you, drunk on you  
Baby, I'll still be drunk on you

We were sitting curb-side, late night city views  
Sipping on some cheap wine and staring at the moon  
Haven't felt a spark in what feels like forever and ever  
Happy we stayed out all night dancing

Oh, what a rush as you held me close, spinning slow  
We drank too much, let our bodies touch on the way back home  
And I got this feeling after you leave  
In the morning I'll still be drunk on you  
Still be drunk on you

Drunk on you, drunk on you  
Baby, I'll still be drunk on you  
Drunk on you, drunk on you  
Baby, I'll still be drunk on you

It doesn't feel like I just met you  
It's like I know you, better hold my feelings back  
Because I just met you and I don't wanna get ahead of myself, no  
It doesn't feel like I just met you  
It's like I know you, better hold my feelings back  
Because I just met you and I don't wanna get ahead of myself

I don't wanna get ahead of myself, oh  
But look at me get ahead of myself, oh  
Oh, what a rush as you held me close, spinning slow  
We drank too much, let our bodies touch on the way back home  
And I got this feeling after you leave  
In the morning I'll still be drunk on you  
Still be drunk on you

I got this feeling after you leave  
In the morning I'll still be drunk on you  
Still be drunk on you

Drunk on you, drunk on you  
Baby, I'll still be drunk on you  
Drunk on you, drunk on you  
Baby, I'll still be drunk on you
