

When people try to get you down
Remember that I'm here for you
No one else can wear your crown
It's yours, just yours
When all you wanna do is hide
I'm sitting there, right by your side
And no one else can steal your light
'Cause it's yours, just yours

Don't you think it's kind of funny
That we're spinning 'round the sun?
Just looking for someone
Isn't it a little strange, honey
And why do we need all that money
To buy another dream?
It's never what it seems
Don't you think it's kind of funny?

When people try to get you down
Remember that I'm here for you
No one else can wear your crown
It's yours, just yours
When all you wanna do is hide
I'm sitting there, right by your side
And no one else can steal your light
'Cause it's yours, just yours

We're all made up of each other
From dust to dust to dust
You and me, the same, my brother
From dust to dust to dust

Don't you think it's kind of funny
That we're spinning 'round the sun?
Just looking for someone
Isn't it a little strange, honey

When people try to get you down
Remember that I'm here for you
No one else can wear your crown
It's yours, just yours
When all you wanna do is hide
I'm sitting there, right by your side
And no one else can steal your light
'Cause it's yours, just yours

We're all made up of each other
From dust to dust to dust
You and me, the same, my sister
From dust to dust to dust
