

# Heart Strings

Oh Wonder

Like two satellites in separate orbit  
Like a quiet life that's slowly distorted  
I was so lonely in love  
I guess I was never enough  
Like two chemicals erupting in thunder  
Up high in vertigo, you lift me to wonder  
I was so lonely in love  
I guess I was never enough

'Cause you were the best thing for me  
Stole my mind and found my dreams  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings  
Best thing for me  
Open the doors and set me free  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings

Like two radios, our frequency fading  
Why can't we start again, we are tessellating  
I was so lonely in love  
I guess I was never enough  
Like the afterglow, your words were a million  
Cut short, now heaven knows, a love without feeling  
I was so lonely in love  
I guess I was never enough

'Cause you were the best thing for me  
Stole my mind and found my dreams  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings  
Best thing for me  
Open the doors and set me free  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings

Stop pulling my heartstrings, my heartstrings  
You got a grip on my heartstrings and I don't wanna take it no more  
Stop pulling my heartstrings, my heartstrings  
You got a grip on my heartstrings and I don't wanna take it no more

'Cause you were the best thing for me  
Stole my mind and found my dreams  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings  
Best thing for me  
Open the doors and set me free  
Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings

Baby, if only you could see heartstrings, heartstrings  
Heartstrings, heartstrings
