

I Like It When You Love Me

Oh Wonder

You haven't said 'I love you', 'I love you' in a long time
Is there something wrong with me?
You haven't touched my body, my body in a long time
Is there something I can't see?

Are we in too deep to take it all back?
'Cause, baby, when I sleep, I only dream black
Are we in too deep to take it all back?

I like it when you love me
I like it when you care
I like it when it's easy
And there ain't all this bad blood here
Don't like it when you hurt me
Don't like it when you swear
Just like it when you love me

I like it when you love me, love me
I like it when you love me, love me

We never seem to smile, smile like we used to
What is it you're going through?
We never drive for miles, talking like we used to
Can you feel it fading too?

Are we in too deep to take it all back?
'Cause, baby, when I sleep, I only dream black
Are we in too deep to take it all back?

I like it when you love me
I like it when you care
I like it when it's easy
And there ain't all this bad blood here
Don't like it when you hurt me
Don't like it when you swear
Just like it when you love me

I like it when you love me, love me
I like it when you love me, love me

I like it when you love me, love me
I like it when you love me, love me
