

I've been depending on the overgrown  
Too many lovers that I'll never know  
Counting my losses as I let them go  
Heavy the water as I sink below

Down down deep down  
Down deep down  
Down down deep down

Oh won't you be my livewire?  
Make me feel like I'm set on fire  
Your love will take me higher and higher  
Oh won't you be my livewire?

I've been pretending all my shots are blown  
Cover my heart up never let it show  
I'm shaking it off to find a higher low  
So heavy the water  
Oh so heavy the water

Falling down down deep down  
Down deep down  
Down down deep down  
Can you hear me falling down down deep down  
Down deep down  
Down down deep down

Oh won't you be my livewire?  
Make me feel like I'm set on fire  
Your love will take me higher and higher  
Oh won't you be my livewire?

So hold me when I fall away from the lines  
When I'm losing it all, when I'm wasting the light  
And hold me when I put my my heart in your hands  
When I'm losing it all, when I'm wasting it

Oh won't you be my livewire?  
Make me feel like I'm set on fire  
Your love will take me higher and higher  
Oh won't you be my livewire?
