

# Lonely Star

Oh Wonder

Literally at this second  
Like in everything that's happening in the world  
Being a human is pretty much the hardest thing to be

Backseat, sat at the local bar  
Dressed to the nines to impress the dark  
Damn, they sure look good together  
I'm just hoping for good weather

Lost it all when I heard the sound  
Windows down and the power's out  
Damn, they sure look good together  
I'm just struck down in bad weather

I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?

Words are there but they don't come out  
Not my best at singing loud  
Damn, I sure can't make it better  
I'm just hoping for bad weather

I guess I'll be a somebody that nobody knows  
Guess I'll never find the one that I can call home  
Home, home

I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?

I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
I'm a lonely star  
Is there anybody out there?  
Is there anybody out there?
