

Love Me Now

Oh Wonder

Oh look the flowers dried up
That's how long you been gone
Oh look my heart so tied up
In all the moments gone wrong

Like a dragon spitting all her fire out
I said come on come on you gotta love me now
Like the damage done from the wreckage found
I said come on come on you gotta love me now
Love me now
Love me now
Come on come on you gotta love me now
Love me now
Love me now

Oh look we're miles dead now
All the water is gone
Oh look we're in the dark down
Man the silence so long

Like a lion spitting all his anger out
I said come on come on you gotta love me now
Like the curse of hope in a barren town
I said come on come on you gotta love me now
Love me now
Love me now
Come on come on you gotta love me now
Love me now
Love me now
Come on come on you gotta love me now
Come on come on you gotta love me now

Oh look we're miles dead now
Caught up in kicking doors down
Mm-mm
Oh look, am I awake now?
