

# Magnificent

Oh Wonder

I'm at 40 thousand feet  
With a circle of the sea  
And I can't look down  
I guess everyone's asleep  
As the pilot's singing sweet  
So alive right now

Flying up sky high  
And then suddenly I see  
What my future could've been  
If I hadn't found you

If I never told you my name, we would be strangers  
And I wonder what we'd have made if we were two  
Nothing as magnificent got nothing on me and you  
Yeah, if never told you my name, then we would be

We would be strangers  
We would be strangers, mhm

In the sticky summer heat  
I got grass stains on my knees and I'm infinite  
Couple lovers running free  
Eyes are looking straight at me and I'm into it

You're my unbelieve  
And then suddenly I see  
What my future could've been  
If I didn't pick you

If I never told you my name, we would be strangers  
And I wonder what we'd have made if we were two  
Nothing as magnificent got nothing on me and you  
Yeah, if never told you my name, then we would be

All my cares are unbound  
Got my heart in my mouth  
And we're dancing in fire  
Will you promise me this that with every kiss  
You'll adore me and hold me for life?  
I would go, baby, an everglow, baby  
I would go so far to say it, "we're magnificent"  
Magnificent

And if I never told you my name we would be strangers  
And I wonder what we'd have made if we were two  
Nothing as magnificent got nothing on me and you  
Yeah, if never told you my name then we would be

We would be strangers  
We would be strangers

Nothing as magnificent  
We would be strangers  
Nothing as magnificent
