

# Nothing But You

Oh Wonder

You were somewhere flying over and water and earth  
Looking at the world for what it is  
I'm at home and sitting, waiting, watching the birds  
Carry little secrets in their wings

Guess I'm a little lost without you  
Living in a black and white  
You bring all the colour to my daydreams  
You bring all the quiet to my life

Wish I was a pilot on your spaceship  
Wish it was two of us in endless flight  
Wish we had a planet we can name it  
Guess I'm thinkin' 'bout you all the time

Got nothing on my mind but you  
Got nothing on my mind but you  
Got nothing on my mind but you  
Got nothing but you

You been gone 2 million, yeah, I'm counting the days  
It's hard to love myself when you're not here  
Sometimes I look up and see you float in a haze  
But it's always just the light tryna appear

Yeah, all of these stars are around me  
Living in my hair like a video dream  
You coming home is the only  
Me on my own going M-A-D  
M-A-D, I'm M-A-D  
I wish I could face it but I'm felling so basic

Guess I'm a little lost without you  
Living in a black and white  
You bring all the colour to my daydreams  
You bring all the quiet to my life

Wish I was a pilot on your spaceship  
Wish it was two of us in endless flight  
Wish we had a planet, we can name it  
Guess I'm thinkin' 'bout you all the time

Got nothing on my mind but you  
Got nothing on my mind but you  
Got nothing on my mind but you  
Got nothing but you

(Got nothing on my mind but you)  
Yeah, all of these stars are around me  
(Got nothing on my mind but you)  
Living in my hair like a video dream  
You coming home is the only  
Me on my own going M-A-D, M-A-D  
(Got nothing on my mind but you)  
Got nothing but you
