

Rollercoaster Baby

Oh Wonder

I couldn't do it if you asked me to explain it
A feeling like I'm on a rollercoaster, baby
I gave you everything you wanted, like a lady
Took off my shoes and attitude without complaining

Now, we're driving your car to the edge of the dark where the world falls apart
And my God, oh, I just can't take it

'Cause the look on your face says you're gonna replace all the moments we had
And my God, oh, I just can't face it
Life without you

There's a hole in my heart, and it's got your name on it
There's a hole in my heart, and it's got your name on it

I couldn't fathom all the romance, overrated
No point in trying to fix a broken bathtub, baby
I spent the summer trying to loosen up, be lazy
The truth is that I kinda gave up on pretending

Now, we're driving your car to the edge of the dark where the world falls apart
And my God, oh, I just can't take it

'Cause the look on your face says you're gonna replace all the moments we had
And my God, oh, I just can't face it
Life without you

There's a hole in my heart, and it's got your name on it
There's a hole in my heart, and it's got your name on it
There's a hole in my heart, and it's got your name on it
There's a hole in my heart, and it's got your name on it

I couldn't do it if you asked me to explain it
A feeling like I'm on a rollercoaster, baby
