

Sweet Disaster

Oh Wonder

The world is flat until it ain't
A sinner till you meet a saint
Then watch the sky fall out of space
A galaxy of halos in your face

The grass is green until you see
A yellow whisper in between
Swim down the Hudson, down the stream
If heaven lasts forever I would scream

Five, six, hold me faster
Paradise hits like a rollercoaster ride
It's seven after we should split but I ain't the type
I don't know where we're going but you and I
We're a sweet disaster
(Sweet disaster, sweet disaster)

Five, six, hold me faster
Paradise hits like a rollercoaster ride
It's seven after we should split but I ain't the type
I don't know where we're going but you and I
We're a sweet disaster
(Sweet disaster)

The cherry tree is pink and grey
Beyond the breeze a summer sway
Oh let the blossom calibrate
Oh lose the leaves and let them show the way

Before I thought that love would be
A deep below beneath the seeds
Now look your love is holding me
And I can feel forever at my feet

Five, six, hold me faster
Paradise hits like a rollercoaster ride
It's seven after we should split but I ain't the type
I don't know where we're going but you and I
We're a sweet disaster

Five, six, hold me faster
Paradise hits like a rollercoaster ride
It's seven after we should split but I ain't the type
I don't know where we're going but you and I
We're a sweet disaster
(Sweet disaster)

Sweet, sweet, sweet
Sweet, sweet, sweet
Sweet, sweet, sweet
Sweet disaster

I don't know where we're going
Five, six, hold me faster
Paradise hits like a rollercoaster ride
It's seven after we should split but I ain't the type
I don't know where we're going but you and I

We're a sweet disaster

Five, six, hold me faster

Paradise hits like a rollercoaster ride

It's seven after we should split but I ain't the type

I don't know where we're going but you and I

We're a sweet disaster
