

# This Christmas

Oh Wonder

There's a million faces smiling in the streets  
And a quiet hum sing winter melodies  
Seems funny how this season brings a tear  
And I'm longing for the snow to disappear

Hey now  
If I close my eyes now  
Shut all the world out  
Just you and me

I'd give all the snow and sleigh bells, all the Christmas lights  
I'd give all the cold and mistletoe, all the cozy nights  
I'd give all the love this time of year, all that festive cheer  
I'd give anything this Christmas, anything this Christmas  
I'd give anything this Christmas to have you here

There's a taxi driving someone home tonight  
And a Christmas card that I will never write  
Wish I had that river I could skate away on  
Wish I had you in my arms, where you belong

Hey now  
If I close my eyes now

Shut all the world out  
Just you and me

I'd give all the snow and sleigh bells, all the Christmas lights  
I'd give all the cold and mistletoe, all the cozy nights  
I'd give all the love this time of year, all that festive cheer  
I'd give anything this Christmas, anything this Christmas  
I'd give anything this Christmas to have you here

I'd give anything this Christmas, anything this Christmas  
I'd give anything this Christmas  
All the snow and sleigh bells, all the Christmas lights  
I'd give all the cold and mistletoe, all the cozy nights  
I'd give all the love this time of year, all that festive cheer  
I'd give anything this Christmas, anything this Christmas  
I'd give anything this Christmas to have you here
