

Twenty Fourteen

Oh Wonder

8 years of holy
Descended in decay
Promises slowly
Gave up believing in fate

Opposites attract
But what the hell is that?
I'm not good with facts
Upside I'm kicking back now
Watch the snakes attack
The venom makes a track
But poison don't mean jack
When it comes to loving you

The devil's in the deep end
And I'm about to crack
The devil's in the deep end
So take your money back
The devil's in the deep end

Play it on the tape
What we could have saved
Might as well erase
Twenty fourteen

Body full of hate
Love ain't worth the pain
22 kinda break
I'm done

Opposites attract
But what the hell is that?
I'm not good with facts
Upside I'm kicking back now
Watch the snakes attack
The venom makes a track
But poison don't mean jack
When it comes to loving you

Listen to me now
Water to the brink
Choose the one I need
To love

So call me to the fight
I think we're gonna make
I will never break
Since 2014
