

Let's Do It

Ohio Players

It takes a L and a O and a V and a E
It takes you it takes me together
Oh let's love we only got one day
I say we only got one day
Oh let's love to pass the time away

They say that I am mean and evil, oh girl
Oh but how else how can a starving man be
If you wouldn't listen to what they
Say behind my back child
You would be making love to me (All right)

It takes a L and a O and a V and a E
It takes you it takes me together
Oh let's love we only got one day
Let's fall in love
I say we only got one day
Oh let's love to pass the time away (all right)

Love on me and let me love on you understand me
That's not your thing to do
If you wouldn't listen to what they say
Behind my back girl
You would be making love to me (all right)

Please do it, please do it
Even you and me can do it
There's really nothing turning it into honey
Oh let's love we only got a day
Oh let's love to pass the time away
