

# History

Olivia Holt

Sorry, I don't really see this workin' out  
It's nothin' you did  
I just can't do this right now  
No easy way to say this and I don't know how  
It's nothin' ya did  
But here goes lettin' you down

Baby, you're so perfect  
But he's the perfect one for me  
I know that you're worth it  
But somethin' 'bout him gets to me  
Gets to me, all I need  
Plus, we got history

I used to love him, he used to love me  
Yeah, we go way, way, way, way back  
We love, love, love like that

Now, I still love him, and he still loves me  
Yeah, we go way, way, way, way back  
We love, love, love like that

(We go way, way, way, way, way, way, way, way back)

I didn't know I felt the way I did before  
It's nothin' I did  
Now, I guess I'm sure  
It's like we never really ever closed that door  
It's nothin' we did  
But, now, our hearts want more

Baby, you're so perfect  
But he's the perfect one for me  
I know that you're worth it  
But somethin' 'bout him gets to me  
Gets to me, all I need  
Plus, we got history

I used to love him, he used to love me  
Yeah, we go way, way, way, way back

We love, love, love like that

Now, I still love him, and he still loves me  
Yeah, we go way, way, way, way back  
We love, love, love like that

(We go way, way, way, way, way, way, way, way back)

Baby, you're so perfect  
But  
Baby, you're so perfect  
But  
Baby, you're so perfect  
But (he's the perfect one for me)  
Baby, you're so perfect  
But (he's the perfect one for me)

Baby, you're so perfect  
But he's the perfect one for me  
I know that you're worth it  
But somethin' 'bout him gets to me  
Gets to me, all I need  
Plus, we got history

I used to love him, he used to love me  
Yeah, we go way, way, way, way back  
We love, love, love like that

Now, I still love him, and he still loves me

We love, love, love like that
