

# No Way Out

Omen

Down, down you go  
Nothing stops your fall  
Life has got you trapped  
Seeing all there is  
Become a part of it and  
Realize there's no way

Caught inside it all  
Worse than any wall  
Crushing dreams that come your way  
Trying, feeling last  
It's much too fast  
Just look, things can change  
Stop - don't wanna lose it all,  
No - it's not worth the pain  
Like a photograph you're in the past  
Just keep your head high you'll win

No way out  
No  
Way  
No way

Out of your mind you go  
You're feeling cold  
It could be ripped apart  
Take it in your hands or you'll surely land  
As one who lives day by day  
How - why must it be this way  
No - you know it's not for me  
False beings and promises  
Your prophets gone  
Climbing over, you can't go last

No way out  
No  
Way  
No way

Now your life's getting hard to grasp  
It's just a play and we're the cast  
Don't you feel it in your heart  
Take the stage and play your part

No  
No way out  
Never  
No way out  
Never  
No way out  
Never  
No way
