

I don't know where I belong, I got no place to call my home
All the people all around me just can't see the things that I can see
I'll find a friend, someone who'll help me understand
That life won't always be this bad and there's no reason to be sad
Because I'm free...

What the fuck? Just my bloody luck!
I'm drowning in a sea of fools, tortured by their stupid rules
I don't mind, I leave all that behind
I quit my job and quit my school and do just what I wanna do
I'm Free...

Everywhere... people point and stare
A happy freak they think it sucks, I don't fit inside their box
No 9 to 5...I just live my life
Forever playing with my toys, I'm not like other girls and boys...

Because I'm Free, yeah! I'm Free!
Exactly where I wanna be, yeah! I'm Free!
So please don't bother me

I wish I could find the words to let you know that it's okay
You don't belong inside the herd, forever children we will play...

'cos I'm Free, yeah! I'm Free!
Exactly where I wanna be, yeah! I'm Free!
So please don't bother me...
