Love Song

One Less Reason

Someone told me you were lost
Then I heard that you were dead
You lived through this broken heart
But killed everybody else
I wish I would have cut it off
Killed you when I had the chance
I took it all upon myself and put the gun into your hands

You said all in means everything
The years gone by, it wasn't worth the wait
But I've been meaning to tell you I hated you all along

And I was never too far from hate
Once I found that love wasn't in the way
You know you had no reasons to change
Once you found that love wasn't in the way

All the words you'd never say
All the lines you'd never cross
Hate me for the man I am
Shun me for the man I'm not
But you were gonna save my soul
Gonna fill me with the truth
There's a place inside my heart
But it never wanted you

You said all in means everything
The years gone by, it wasn't worth the wait
But I've been meaning to tell you I hated you all along

And I was never too far from hate
Once I found that love wasn't in the way
You know you had no reasons to change
Once you found that love wasn't in the way

You know it don't mean much and it feels so wrong
But these years and years and years have passed
And now it didn't take so long, it didn't take so long
My life is half gone, my life is half gone

You know I start to fade, I need a change, I need a break
Start to fade, I need a change, I need a break
Start to fade, I need a change, I need a break
Start to fade, start to fade

And I was never too far from hate
Once I found that love wasn't in the way
You know you had no reasons to change
Once you found that love wasn't in the way
