

## Treason

### One Less Reason

You gave me enough to get me in  
Just not enough to see me through  
Every single moment passes  
Every blessing I count  
No it's never going to be  
Never going to be just

It's like this  
Do you feel it? No  
It's like this  
Do you feel it? No

With just one word you don't agree it  
You were loading up your gun  
One loss is not a reason  
To say you've never won  
And the fool that always leads you  
That left you in this hell  
How is it not treason  
When you lie to yourself?

Was it just so easy to forget?  
That I never needed help I needed you  
But you can be right and way off  
Always stumbling in the dark  
I would never let you leave  
Never let you leave your mark

It's like this  
Do you feel it? No  
It's like this  
Do you feel it? No

With just one word you don't agree it  
You were loading up your gun  
One loss is not a reason  
To say you've never won  
And the fool that always leads you  
That left you in this hell  
How is it not treason  
When you lie to yourself?
