Bulldozer Frenzy

One Man Army and the Undead Quartet

I'm under attack
This sickness is reaching for me
It's getting under my skin
This insect must be terminated

Yeah, I like you better dead You demon off the leach And as the rotted flesh is aging This world is getting nicer

So don't question my motive You're the reason I fucked up Don't question this mayhem You're the reason of anger Unleashed and justified Bulldozer Frenzy Over and over again

I'm so confused
A loud noise penetrating my ears
This virus is killing my brain
Mutha fucka die!!

Yeah, I like you better dead You demon of the leach And now as I piss on your grave This world is getting nicer

So don't question my motive
You're the reason I fucked up
Don't question this mayhem
You're the reason of anger
Unleashed and justified
Bulldozer Frenzy
Over and over again
