

# Hunger

## One Without

Let me have you  
And consume you  
Until there's nothing more to gain

This behavior I'm addicted to  
Is my lover and archenemy in one

Please feed my inner hunger  
Please satisfy my need for a kick

(2x)

Let me have you  
And consume you  
Till there's nothing more to gain  
You talk about mercy  
I say I have no shame

I feel no shame at all

Please feed my inner hunger  
Please satisfy my need for a kick

(2x)

Let me have you  
And consume you  
Till there's nothing more to gain  
You talk about mercy  
I say I have no shame

Such behavior makes you wonder  
What a misery this poor thing  
Has gone through

Am I a heartless person  
Is there no hope in me  
I'm hurting  
I can see you leaving me

(2x)

Let me have you  
And consume you  
Till there's nothing more to gain  
You talk about mercy  
I say I have no shame  
I have no shame  
I have no shame
