

## Better Off

Ookay

I was feeling good about myself  
Until you came around asking for help  
I really don't mind being alone  
I've gotten used to dinner with my phone

And you can try all you want to convince me  
That I need something more, something more, something more  
And you can try all you want to convince me  
That I need something more, something more, something more

But I'm better off alone  
I'm better off alone (Better)

It's been a couple days since I left home  
And when I do I keep my headphones on  
You know I really don't mind being alone  
I've gotten used to dinner with my phone

And you can try all you want to convince me  
That I need something more, something more, something more  
And you can try all you want to convince me  
That I need something more, something more, something more

I'm better off alone  
I'm better off alone (Better)

And you can try all you want to convince me  
That I need something more, something more, something more  
And you can try all you want to convince me  
That I need something more, something more, something more

I'm better off alone  
I'm better off alone (Better)  
I'm better off alone  
I'm better off alone (Better)

(Hey!)
