

## Feel Alright

Ookay

You looked so good, you're standing there  
And tell me what your name? What your number?  
I'm gonna find you after tonight  
And I can't wait to get out of here  
Oh with you (with you, with you, with you)

I wanna make you feel  
Alright, alright  
I wanna make you feel  
Alright, alright  
I wanna make you feel  
I wanna make you feel  
I wanna make you feel  
So let's take it!

Hold on, baby, don't you know?  
That I can help you if you let me  
And we can move it fast and we can take it slow  
Just let me know

Cause baby I, I wanna make you feel  
Alright, alright  
I wanna make you feel  
Alright, alright  
I wanna make you feel  
I wanna make you feel  
I wanna make you feel  
Ay, so let's take it!

Are we feeling all good?  
Are we feeling alright?  
Are we feeling all good?  
Are we feeling alright?

Are we feeling all good?  
Are we feeling alright?  
Are we feeling all good?  
Are we feeling alright?
