

Way in over My Head

Ookay

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head

Hey! Hey!

Hey!

What the hell you want from me?
Cause I've given you everything
Tell me how to get the point across that we got it cause I guess it's
a loss
You fragged me down to the surface
Tell me is it even worth it?
You know exactly how to get inside my head
And now it's nothin' like, with you in my bed

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head

Hey! Hey!

Hey!

Hey! Hey!

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head

I'm way in over my head
I'm way in over my head
I'm way in over my head
I'm way in over my head
