

Another Disease

Oomph!

Baby - you knock me down like a fucking disease
Baby - you work it out 'til I'm down on my knees
Baby - you keep me down though I'm begging you please
Baby - and now I know there's no fucking release

Dusk in my heart -
Another day, another night
Another ... bullshit! Another compromise
Dusk in my mind -
Another war another fight
Another ... bullshit! Another false advice

Burn my head now honey!
You're just another disease
Burn my head now honey!
Blow my brains out honey!
Just like another disease
Blow my brains out honey!

Baby - you burn me out like a fucking desire
Baby - you spin me round and you set me on fire
Baby - I want you now though I know you're a liar
Baby - so ban my heart on a funeral pyre

Dusk in my heart -
Another day, another night
Another ... bullshit! Another compromise
Dusk in my mind -
Another war another fight
Another ... bullshit! Another false advice

Burn my head now honey!
You're just another disease
Burn my head now honey!
Blow my lights out honey!
Just like another disease
Blow my lights out honey!

Dusk in my heart, in my mind, in my soul
