

# War

Oomph!

Dust in the sky - another bullet for the head of a lie  
Dust in the sky - another bullet for the head of a lie

Where is the sun? It is so far away  
The sun is gone - only you gotta stay  
Don't mind if their words are true  
Just do what they tell you to  
Your will is gone - it is so far away  
Their will be done - you've got nothing to say  
You would resist if you only could see  
But there's too much fucking dust on your T

War - you're just a victim of war  
War - you're just a victim of war

Dust in your eye - and now the bullet's in the head of the lie  
Dust in your eye - and now the bullet's in the head of the lie

Where is your pride? It is so far away  
There's only night and you still have to stay  
Don't mind if their story's true  
Just do what they want you to  
Where is your God? It is so far away  
There was a lot - now there's nothing to pray  
You would believe if you only could see  
But there's too much fucking dust on your T

War - you're just a victim of war  
War - you're just a victim of war

Don't open your eyes - don't care about lies  
Just shut your mouth - you're just a victim of war  
Keep holding your gun - keep holding your tongue  
Just shut your brain - you're just a victim of war

Don't care about pain - don't care about shame  
Just shut your mind - you're just a victim of war  
Keep trying to sleep - keep counting the sheep  
Just shut 'em down - you're just a victim of war

Go! Fight! War!
