

# All I Want Is You

Opus

Sittin' in a train so far away from home  
Watchin' all the trees makes me feel alone  
My heart was always true  
All I want is you  
The snow and rain is blowin' over London Town  
Everybody's busy, can't slow down  
Somebody tell me what to do  
All I want is you

All I want is you  
What I never knew  
I lost my way somehow  
I've gotta know by now - All I want is you

Sometime ago I remember as we took a walk  
Laughin' and talkin' - crossin' the park  
Starin' into space feelin' blue  
All I want is you  
Down Abbey road we're walkin' hand in hand  
Breathin' the air of a foreign land  
The view from Columbia is true  
All I want is you

All I want is you  
What I never knew  
I lost my way somehow  
I've gotta know by now - All I want is you

But I never knew  
I lost my way somehow  
I've gotta know by now - All I want is you
