

Born To Win

Opus

f you wanna play in my game
I really hope we see things the same
I don't wanna play this game alone anymore
If you wanna stay by my side
You've gotta throw away your pride
It ain't so hard to do and should I know

Each time it feels like the end of the road
Deep in my heart the fight goes on
Even if I wanted to - I could never let go
This time I know it's for real

I was born to win
Never wanna lose
I was born to win - born to win
Never wanna lose
Born to win

If you wanna feel like I do
Let me try and give you one clue
Never let what people say and get you down
Take a little tip from me now
Your dreams gotta come true somehow
Close your eyes and you will see

Each time it feels like you wanna give in
Deep in your heart the fight goes on
Even if you wanted to - you could never let go
This time I know it's for real

I was born to win
Never wanna lose
I was born to win - born to win
Never wanna lose
Born to win
