

When I Met You

Opus

Was it a dream, or was it true
I closed my eyes when I saw you
I never thought that it could happen
My heart went bang when I meet you

A lucky chance, or was it more
so paralyzed like never before
Forgot to dance and could say nothing
'Cause it went bang
When I meet you uhhh...
When I meet you uhhh...

I think of my life, remember that day
Remember the night, that changed my way.
I know what makes my life worth livin'
Since the day
When I meet you uhhh...
When I meet you uhhh...

I know my heart was an empty place
All the time before
But when you came I knew I'd found
What I'm looking for

Is it the child or is it you
You're all of my life, and that's the truth
God really found my destination
I got a sign
When I meet you uhhh...
When I meet you uhhh...
