

Suckerface

Orgy

Bringing back the time cause we know you're special.
And we think you know you're wrong.
Bringing back the time cause we know your special
And we think you know you're wrong.
Suckerface you're special.

Do you believe yourself
It's not science.
Do you hide from your reflection?
Do you believe yourself to be
Number one in the world-electric.

Raised by the queens your mother made.
So how does that make you a human god?
And all the ladies want you,
And sometimes gentlemen too.
And still we think you know you're wrong.
Suckerface you're special.

Bringing back the times cause we know you're special,
And we think you know you're wrong.
Suckerface you're special.
