

## Where's Gerrold

Orgy

You're light bright and animated  
A demolition color scheme mismatched and complicated  
Who put the hex on Mr X  
living in a bigtop dimension  
You're the stalker of the mini world  
Trapped in wonder land suspension  
Transmissions from the micronaut girl  
Where are you now  
And we'd like to think you found your own way home  
On your own  
Where's Gerrold now  
You're a visual illusion like Christmas  
a trend setter for the color blind  
A think fast solution, no way out  
Washed away with the crimson tide  
Transglobal spectacle with post mortem fame  
Popsicle cannibal  
Can you hear me  
Rainbow dementia smiles everyone smiles  
The small realities a pixie playland  
Can you find yourself in bright lights flashing lights  
Cover my eyes I'm feeling sick  
I'm getting paranoid  
Find yourself  
With bright lights flashing  
Bright lights flashing I'm feeling paranoid
