

If You Were Here With Me

Orianthi

When I look in your eyes, I feel something I can't explain
Like I've been searching my whole life for you, babe
Completely lost in the moments, completely lost sense of time
There's no better feeling, baby, I can find
Cos this ain't no temporary love
Like the ones they show on TV
Well, this is the real thing, baby
As far as the eye can see
If you were here with me
We're laying underneath the stars
I would do anything
If you were here with me
If only we could get that far
It would mean everything
Once in a lifetime does this sort of love come around
The missing piece you keep searching for, finally you found
I really hope that you feel the same way that I do
Cos, baby, I would be so lost without
Cos this ain't no temporary love
Like the ones they show on TV
Well, this is the real thing, baby
As far as the eye can see
If you were here with me
We're laying underneath the stars
I would do anything
If you were here with me
If only we could get that far
It would mean everything
Ooh
Oh, whoa, whoa
Cos this ain't no temporary love
Like the ones they show on TV
Yeah, this is the real thing, baby
As far as the eye can see
If you were here with me
Laying underneath the stars
I would do anything
If you were here with me
If only we could get that far
It would mean everything
Oh, whoa
Hey, yeah, yeah, yeah, yeah
Oh
Oh, no
Hey, yeah
Ooh
Ooh
