

Astral conflagration  
Prostrate unto what is above what is below  
Rages through the void that blinds  
Cyclopean witness to  
The sun grows red and swollen with life  
Consuming with a hunger saturnine  
An amalgamation of god parts  
First step towards the entropic

Equilibration everything is disposable  
Racing towards the second coming the heat death of the universe  
An elegant and simple design the stagnant and the profound  
Spontaneous entropy of deus machinations  
The advent frozen in space dark matter messiah  
An absolute zero revelation holy decoherence  
The wormhole emissary a cold place omega

A great rapture as the universe dies  
Quantum stillness thy kingdom come

An elegant and simple design spontaneous entropy  
The advent frozen in space an absolute zero revelation
