

# Over Your Head

Orla Gartland

[Verse 1]

I know you go undercover  
You cross your fingers and say that you love her  
I know that she isn't crazy  
But she said that's just the way that you made me

[Pre-Chorus]

Ego is a scary thing  
Power is a game to win  
Maybe if you keep your eyes closed  
Then you might begin  
To see that you're way over your head

[Chorus]

Your head, your head  
You're in way over your head  
Your head, your head  
Walk away, far away, it's better this way

[Verse 2]

I met you just at the right time  
You were my best friend, but I was just part-time  
And I saw you at the front door  
And you knew that I wasn't myself anymore

[Pre-Chorus]

You said confidence is a tricky thing  
  
And I know that the line is thin  
Maybe if you keep your eyes closed, you might begin  
To see that it's all gone to your head

[Chorus]

Your head, your head  
You're in way over your head  
Your head, your head  
Walk away, far away, it's better this way

[Bridge]

Ego is a scary thing  
Power is a game to win  
Maybe if you keep your eyes closed  
You might begin  
To see that you're way over your head

[Chorus]

Your head, your head  
You're in way over your head  
Your head, your head  
Walk away, far away, it's better this way

[Outro]

It feels like drowning  
It feels like drowning  
It feels like drowning  
It feels like drowning
