

You said it was a wasted promise  
I thought it was a waste of time  
You said it was the perfect crime  
You thought it was the perfect picture  
I think it didn't fit the frame  
The carnival in the rain

I don't know what I'm doing  
But there is nothing wrong with that  
All we built left to ruin  
And all I wanted was a chat  
What the hell are we doing?  
I'm just so tempted to turn back

Don't shout, no doubt my tongue is tied  
Our fears will all combine to whispers in time  
Heart out, my mouth puts up a fight  
Our fears will all combine to whispers in time  
Whispers in time  
Whispers in time

I should have told you all my secrets  
I never took the chance you gave  
I guess I was never that brave  
I never meant to leave you hanging  
When honesty is in dispute  
We danced around the truth

Not sure what we're proving with all this battle and attack  
What the hell are we doing?  
I'm just so tempted to turn back

Don't shout, no doubt my tongue is tied  
Our fears will all combine to whispers in time  
Heart out, my mouth puts up a fight  
Our fears will all combine to whispers in time (whispers in time)  
Whispers in time (whispers in time)  
Whispers in time (whispers in time)  
Whispers in time  
Don't shout, no doubt my tongue is tied  
Our fears will all combine to whispers in time  
Heart out, my mouth puts up a fight  
Our fears will all combine to whispers in time  
Don't shout, no doubt my tongue is tied  
Our fears will all combine to whispers in time  
Heart out, my mouth puts up a fight  
Our fears will all combine to whispers in time  
Whispers in time
