

## Nites Out

## Other Lives

Sit around 'til the morning reigns  
It's the fade of the hour, it's a trap  
I hear you now are you talking to me?  
You know exactly the kind we are, if you say so

My my my ghost is always alone  
It's never to be seen again ah la la la la  
Celebrate the day

Ah they're around, are they talking back?  
It's the howls around you, it's an act  
I hear you now and you're talking to me  
You know exactly the kind we are, if you say so

My my my ghost is always alone  
It's never to be seen again ah la la la la  
Celebrate the day

Exit out now, release me  
Exit out now, release me  
Exit out now, release me

Exit out now, release me  
Exit out now, release me
