

## We Wait

### Other Lives

Death has come around my mind so often in a sleep  
We were dreaming 'bout a winter you won't see  
And despite the lies that tie a man you held your head so high  
You're often on my, always on my mind  
You're on my...

And we wait

The thought keeps buzzin' round my head since knowing you were gone  
Wondered how I'd failed to see it coming on  
And in my dreams I often think of you, I wonder where you've been  
See, I don't remember all too much since then

And we wait, we wait  
Oh, we wait for you to rest  
And we wait, we wait

Some may call it fate but I just bow my head and run  
It was nothing but a hand upon a gun  
Now in my dreams I come and sit with you and I ask you how you've been  
'Cause I don't remember much as I did then

And we wait, we wait  
Oh, we wait for you to rest  
And we wait, we wait
