

Who's Gonna Love Us

Other Lives

Cover me inside the dream
There's no peace so comfort me
And I'll be yours entirely
At least until I win
So who's gonna love you then?

Don't talk to me I'm silent, I
Got fire burning in my sight
Cause when you find your love is gone
You cannot figure how
Who's gonna love you now?

Who's gonna love you?

Ah
Who's gonna love you now?
It's never enough
Don't you grow tired of these charades?
Ah
Who's gonna love you now?

Who's gonna love us now?
It's never enough
Don't you grow tired of these charades?
Ah
Who's gonna love us now?

Who's gonna love you now?
Who's gonna love you now?
