Home in Your Heart

Otis Redding

Don't you know I got to find me a home Right now in your heart

I'll travel over miles and down the highways, babe Through the valleys every byway Just to find me a home right now in your heart

I'll bring you to the music, refueling
Everything you wanna
Everything you need babe
Just to have me a home right now in your heart

Baby I'll travel for you over miles and
Through the valley babe
Down all the highways
Through the valleys honey
Just to find me a home right now in your heart

I gotta, gotta, gotta have it baby Gotta find me a home I've got to have a big beautiful home Somewhere in your heart
