

Do It Again

Outasight

(Lemme see you move that body)

It's been a long time, since the first time
But here we are again
I've been to New York, LA
Right through the city of wind
[?] uptown, downtown
Mix it up like juice and gin
And I've been to dive bars, five stars
Everywhere that's in between

Now baby let's go, woo!
Get your ass up on the floor
We ain't playin' around no more
Come through and join the floor
Yeah let's roll, woo!
Been workin' way too hard
Take a night off from your job
We've done this once before

Let me see you move
Dance the night away
Let me see you move
Dance the night away

Let's do it again
Gonna make it move
Dance the night away
Let's do it again
Gonna make it move
Dance the night away

Gotta groove with it
Y'all know you gotta with it
Gotta turn it up, gotta loosen up
Never lose vision
In the continental, at the Intercontinental
I move with purpose
None of this is accidental

Let's go, woo!
Get your ass out on the floor
We're not playin' around no more
We've done this once before, yeah

Let me see you move
Dance the night away
Let me see you move
Dance the night away

Let's do it again
Gonna make it move
Dance the night away
Let's do it again
Gonna make it move
Dance the night away

I just wanna dance
Let me see you boogie, let me see you move
Let me see you move
We did this once before, you know what to do
I just wanna dance
Let me see you boogie, let me see you groove
Let me see you move

Let's do it again
Gonna make it move
Dance the night away
Let's do it again
Gonna make it move
Dance the night away

Dance the night away
Gonna make it move
Let's do it again
Gonna make it move
(Let's do it again)
