

# Breathin' Under Water

Outlandish

'Cause I'm breathing underwater  
Where there's no one, no one nowhere  
'Cause I'm breathing underwater  
Where there's no one, no one nowhere

Hold down to my pen now  
Everyday we wake up  
Just to sell our souls out  
Morgage stress in old town  
Cities on hellfire  
Blew out every lightbulb  
What was that I wished for  
Was it just a nighthmare  
My birthday, my funeral  
Did I die for nothing  
Instead of living for something  
Uneducated chit chat  
Teddy bear terrorist  
And I have the vile kit  
It's where the track is  
Music goes this so  
It's so powerfull  
Ain't no second guessing  
Maybe you know the difference  
What's between just being alive  
And just living  
Certainly I'm a gamble  
Support me in a limo  
I'm a P I M P  
Preaching in my own tree

Breathing underwater  
Meet the sun tomorrow  
Listen quietly  
Feels like they are laughing at me  
When the writing gets rough  
When the writing gets rough  
'Cause I'm breathing underwater  
Where there's no one, no one nowhere

Bendiendo mis palabras es negocio esta feo  
A veces ya ni escribo, a veces ya ni creo  
Le pongo a mi raiz un corte el europeo  
No importa donde estoy ahi, me llama extranjero  
Si faio ahi yo sigo fijo mi camino  
En guerra con mi la pisa si me siento vivo  
Trabajo como loco por cosas que dan poco  
Respiro bajo el agua pero en aire me sofoco

Breathing underwater  
Meet the sun tomorrow  
Listen quietly  
Feels like they are laughing at me  
When the writing gets rough  
When the writing gets rough  
'Cause I'm breathing underwater  
Where there's no one, no one nowhere

My pieces falling to pieces  
I'm cutting my losses, cutting my leashes  
From the hypocrites doubt us lock us and leaches money  
Can't buy happiness at least I can lease it  
I'm not being facetious when I say I need Jesus  
How can we follow leaders when we have such hallow leaders  
I'm focused on the game, can't handle I'm the one from the bleaches  
I'm focused on the game, can't even hear the cheerleaders  
I'm focused on the game, more than I'm focused on the fame  
And I got that type of focus turns my vocals into flames  
I got to stop for Moses hocus pocus ain't the same  
And if I am the Pharaoh I got nothing in my lane  
How can I speak too deep, I got millions of ancestors  
Deep in the Atlantic from where the slave traders came  
And they still speaking through my vein  
So when I'm speaking underwater, you all thought I was insane
