Introspective

Outlandish

Brother, stand the pain We' filled with skin, blood, veins, bone, soul and brain There's no room for lack of trust We must just read to act and bust Don't go back to sleep, time for prayer Don't let it defeat ya, time to find what's ya real need my player You who only see me as an entertainer See this here I have to say; I have this world But I also have my faith The early breeze dawn Is my energy shot When I don't make it in time, feel like everything drops Learn from Ali how to fight Without the ego in sight I gotta fast for a while so my nature is cleansed The hidden sweatness from my stomachs emptyness is my friend U who only see me as an entertainer See this here I have to say I want to be free from this ego dog of mine Cuz it hides who I am and it's wasting my time Put a leash on it brother Once he sniffs he is on fire Learn from Ali how to fight Without the ego in sight I gotta fast for a while so my nature is cleansed The hidden sweatness from my stomachs emptyness is my friend U who only see me as an entertainer Yeah! Lo voy a hacer Pa' mi barrio con el que siempre puedo disponer Y que salga como salga Esta vez va pa' la calle Para todos mis consortes que no pierden ni un detalle Me preguntan de donde soy Soy del rumbo Donde todos son muy duros pero justos Donde toda sinfonía es con pasíon Tú que solo buscas un entertainer Mis línias están aquí Es mi vida tengo lengua Eso es así Yo digo lo que veo y reflejo lo que siento Honduras, mi Cuba, Dinamarca manifiesto Mis pensamientos de la calle han fluido Con los pies sobre la tierra escucho su crujido Aquí toda sinfonía es con pasíon No solo soy un anfitrión This [Translation:] Yeah I'm gonna do this For my hood who always have my bag And come what may This time it's for the streets To all my Moros that don't miss any detail They ask me where I'm from I'm from way over there

Where everyone is hard but rightful Where every symphony is with passion U who only is looking for an entertainer My words are right here This is my life I've got a voice That is just how it is I have to say what I think, I reflect what I feel Honduras, Cuba and Denmark I get to represent These thoughts, they flow from the streets With my feet on the ground I hear them rustle Here every symphony is with passion I'm not only a master of ceremony This

Lets keep it shoulder to shoulder and feet to feet Straighten our lines from inside and to on the streets It's the voice of a new generation that can't be beat It's that type of music that gets under our skin n meat It made me bow down to the most high And realize whoever said that a grown man can't cry they lied See every soul will taste death I only fear him I address his beloved with a peace be upon him
