## **Deny the Cross**

Overkill

I'll steal your life and cut out your heart Rip the core of your world apart Then I'll take your sight, leave ya blind Laughing hard as you loose your mind

Smash in your skull! Kick out your brains! Dance all over! What remains!?

~Life!~ The living danger ~Death!~ The welcome stranger ~In sin!~ You deny the cross, deny the cross

I'm an angel, I'm virgin white This only happens every night Restitution for my sin Imprisoned virtue, time begins

Killer instincts escape my find! Path of destruction left behind!

~Life!~ The living danger ~Death!~ The welcome stranger ~In sin!~ You deny the cross, deny the cross

Life, it walks away, it walks today, it fades away Death is here to stay, is here today to deny the cross

Draw and quarter, slice the meat Now there's something more to eat Nothing left, there is just a frame This poor soul has no name

Back to dirt! Six feet deep! I take a breath long and deep!

~Life!~ The living danger ~Death!~ The welcome stranger ~In sin!~ You deny the cross, deny the cross
