

# Electro-Violence

## Overkill

Watch the circle, dehumanize  
Fuck the world, stay outside  
You tread on me and you will find  
That you flirt with death before your time

Face the music and the time has come!  
Into the circle! Electroviolence  
~Violence~ Electroviolence  
~Violence~ Electroviolence

Keep your distance, subdivide  
Do not enter, conservative type  
Sweaty bodies, bodily harm  
Abuse thy neighbour, thats the charm

Face the music and the time has come!  
Into the circle! Electroviolence  
~Violence~ Electroviolence  
~Violence~ Electroviolence!

~Blood~ shed on everyone  
Don't mistake violence for fun  
~Blood,~ guilty fashion fiend  
What you here for? You don't fit in

Take the shot, take the pain  
Rebound, back again  
Uncivilized reaction appeals to me  
No restraints, face reality

Face the music and the time has come!  
Into the circle! Electroviolence  
~Violence~ Electroviolence  
~Violence~ Electroviolence

Never victim, always vice  
Taking charge, desensitized  
Do unto others, stay unbowed  
You social misfit, you're one of us now

Face the music and the time has come!  
Into the circle! Electroviolence...
